# Master Lock®

## Lightweight Safety Lockout Systems

*Designed Exclusively For Lockout/Tagout Applications*

### Special Features

- One employee, one lock, one key.
- Key retaining to ensure padlocks are not left unlocked.
- Extra keys only available from factory.
- Up to 100,000 unique key changes available.
- Lightweight Xenoy® thermoplastic lock bodies are durable and non-conductive.
- Sonic-welded body withstands corrosive and rugged industrial environments.
- Customize your system with choice of eight bright injection-molded colours.
- Two body heights available.
- High security 6-pin cylinder exclusive to Safety Lockout.
- Extra clearance steel shackle fits a wide range of lockout applications.
- Ball-bearing locking resists prying.
- Permanent write-on labels allow for easy on-site custom identification.

## Safety Lockout Hasps

*Designed Exclusively For Lockout/Tagout Applications*

A safety lockout hasp is used when more than one employee needs to work on equipment with energy sources. The hasp should have similar performance capabilities to that required of the locks.

### Key Features

- Heavy gauge steel resists prying.
- 1 inch & 1-1/2 inch diameter options fit a wide range of equipment.
- Each accommodates up to 6 locks
