

## Roller Door Security System

The TMP Security Disc is a unique locking device designed with security and safety in mind.

It Protects against your roller door being forced open by unwanted intruders.

*Suitable for installation either Internally or Externally!*

### Simple

The user friendly design of the security disc allows it to be locked or unlocked in seconds

### Safe

The top of the security disc has a low convex shape to minimize chances of tripping. It allows vehicles to be driven over it without risk of puncture.

### Secure

The security disc effectively secures a roller door to the floor helping to prevent unwanted intruders. It can also be used as a bike, trailer boat etc. lock.
