Master Lock®

Covered Padlocks

Ideal for sheds, gates, boats and other outdoor security applications. Master Lock Company's covered padlocks feature our best-selling, 1-1/2-inch laminated steel padlock combined with a hi-tech, plastic cover that protects the lock body and shackle.

An attached, quick-snap cap covers the keyway to help protect the lock cylinder from rain, snow, dust and dirt. The locks come in black, blue, red, green and yellow. To make it easy to identify the correct key to open the lock, the key heads are color-coded to the lock bodies.

The lock bodies feature layered construction, a pin-tumbler lock mechanism to resist picking, and a dual-locking system which independently locks each shackle leg to prevent pulling, prying and hammering. The shackles are also coated for extra protection.
